Two weeks from today Barre city will elect a mayor, also other officers.

The anniversary of the birth of George Washington tomorrow will be observed as a holiday in every state of the union save Missouri.

There will be no arbitration between one employer and his employee in Rutland, J. F. Manning and J. F. Carder. They are both candidates for the office of mayor.

There have been so many feints and sidesteps in this matter of promised reform for the workmen of Russia that the workmen may not be blamed if they look the proposed gift horse straight in the mouth.

TO THE PEOPLE

Everybody's Magazine for March, with the latest instalment of my story, "Frenzied Finance," is out today.

BUY IT.

In it I begin the main story of the Crimes of Amalgamated.

I take up and handle fittingly, I think, some of the soundly "System's" character traits—deal with them—deposit them.

Rogers' Man Friday, Denis Donohoe, and the "Lawson Expose" they have concocted I swing through the air once, twice; then, with a mop-the-gutter motion, drop.

I reach once for James H. Eckles, Ex-Comptroller of the Currency of the United States, the young financial phenomenon who jiggled the big Cleveland bond, now president of the Commercial National Bank of Chicago, and who is steering for the "System" in the West in a split-tongued, mud-slinging after dinner skit, "Eckles Flays Lawson, the Stock Jobber," which the insurance companies are circulating by the million—I reach for him, and I think—get him! Anyway, it's for you, the people to say.

James M. Beck, Ex-Assistant Attorney-General of the United States, valiant "trust buster" and people's champion, who got such a peep behind the Government's scenes in the Northern Securities hold-up that he was picked off by Rogers, Rockefeller and "Standard Oil" for legal adviser—I think I get three fingers and a thumb over and under his collar, and in a jerk, pull and twitch, expose just why James M. Beck is delivering garbage bouquets before college and insurance round-ups in the East, tagged "Beck Grills Lawson as a Frenzied Fakir."

This is the brilliant reformer who came to Boston on the eve of the recent infamous Gas Trial, and was so anxious that I should "match up" my testimony with Rogers. Do you know what "matching up" testimony means?

Other things and people of moment are man-handled and headed for the hospital.

Let me say right here—this number of Everybody's contains Russell's second chapter on the Beef Trust, which it behooves all patriotic Americans to read. If this March number had no "Frenzied Finance," nothing but the Beef Trust story between its covers, I would willingly contribute \$15,000 to \$20,000 worth of advertising to get it into the hands of the people.

Last month the edition of Everybody's numbered 600,000—unprecedented in the history of general magazine making—an increase of 200,000 over the previous month. Stop and think that this 200,000 increase in itself is much greater than the entire circulation of many of the leading magazines of the country, such as "Harpers," "Scribner's," "The Century" and "The Review of Reviews." Still, I calculated that every copy would be sold within three days, and that this month's edition should be at least 1,100,000 or 1,200,000. I was mistaken. The West and South stood right up and went ahead as in the other months, but the East fell behind. They tell me it was because my instalment was slow and heavy; that there was not enough raw-head-and-bloody-boneness about it. Maybe so, but it was the most important chapter I have yet written. It is full of valuable educational material. It was a brain clearer—absolutely necessary to an understanding of the "System" and the Crimes of Amalgamated. But with the lively chapter in the March issue, and the tremendously hot instalments that are to follow, I feel that the halt in the increase (this month's issue is the same as last, 500,000 copies) is but momentary.

Let the American people, as they thumb over this exquisite March number of Everybody's, ponder what Russell's and my work means.

Ireland at the end of a hundred years of tortured struggle for Home Rule, will probably not attain that end before another five or ten have passed.

The French were fifty years trying to exchange their royal collar for the ballots of free men. It took the stalwart, strenuous Yankee a decade to convince Royal George that his room was better than his company.

The Russians have been working their bloody kineoscope night and day in the interest of constitutional government, and are still at it.

Sixty days after the people had "Frenzied Finance" in their hands, the "Standard Oil" monster was compelled, after forty years of silence, to publicly doff its insolent bonnet to the people.

Three months after the people got their eyes fixed on the deviltries of the "System" they elected as President a people's champion, with a popular majority greater than ever given any of his predecessors.

Four months after "Frenzied Finance" was introduced into American homes three leading insurance companies were discharging their agents in bunches, and the aggregate business of the three was falling off at the rate of \$4,500,000 a week.

After five months a single blast of truth from one man shook Wall street to its foundations, and over \$300,000,000 of what the people had been taught to believe was real value ran off into the gutter in the form of dirty water.

In six months, for the first time in the history of our country, a President of the United States was able to take by the throat the greatest trustees combinations and trusts the world has ever known, and shake them until their teeth chattered and their backbones rattled like hung dried corn in a fireplace when the wind gets at it.

In seven months the greatest national bank in the country, the City Bank of New York, was being hung up by the heels where all the people could see it in a lower and more contemptible transaction than I had even accused it of.

In eight months one of the greatest insurance companies of America was rent by internal dissension and its trustees were gouging and mauling each other in a public brawl as to who saw the people's savings first and who should have the larger part of the loot. Now these trustees of a great and sacred institution are accusing each other of things and hinting at crimes which even I have not touched upon.

And right here, at the beginning of my 9th chapter, Kansas—God bless her!—has risen and is sweeping her end of the "System" into the muddy waters of the Missouri to the tune of "Douse the dirty reptile—Douse it!"

The people should ponder these things as they read this month's issue of

Everybody's Magazine

Will Investigate Salvation Army Land Settlements in America.

London, Feb. 21.—The White Star line steamer Teutonic, which sails from Liverpool for New York, February 23, will have among her passengers Rider Haggard, the author who has been appointed a commissioner to inquire into the conditions and character of the agricultural and industrial land settlements organized in America by the Salvation Army.

UNITED CITIES REALTY CORPORATION.

This is what \$5 or \$10 a month installment secures to the man who expects to live, an investment far superior to that offered by any life insurance company in America. The United Cities Realty Corporation invests only in the highest class of income-producing city real estate, insuring absolute protection of principle and accompanied by a steady and increasing income. Its directors and officers serve without salaries, depending for their compensation upon one-half the surplus profits after the preferred shareholders have received cumulative dividends at the rate of five per cent per annum. The remaining half of such surplus is paid to the holders of the preferred stock in addition to the regular five per cent dividends. The last dividend paid was at the rate of six per cent a year. The only salaries paid are for management and clerical work, amounting in the past year to less than \$4,500. The Corporation now owns one million dollars worth of revenue-producing real estate and publishes the fullest reports regarding its business. Every shareholder is privileged to make a thorough investigation of its affairs. Provision has been made to loan ninety per cent of the par value of shares should holders deem it necessary to borrow.

Shares \$120 each are sold in blocks of five or more. Terms, \$5 and upward a month.
